### Message from the Guest Editors

Dear Colleagues,

The Immune System (IS) and Kidney function are closely and interactively connected. Systemic Lupus Erythematosus, hepatitis B and C, solid organ malignancies, and hematological diseases are only a small example of the primary causes affecting kidneys through several immunological pathways.

Our Special Issue of *Life* aims to elucidate the interaction between the IS and kidney disease in terms of the involvement of the IS in the pathogenesis and progress of glomerular diseases.

We invite researchers to submit their work on the following subjects:

1. Immune Mechanisms involved in systemic diseases, infections, and malignancies affecting the kidneys;
2. Pathogenesis and Histology in primary and secondary glomerular and interstitial diseases;
3. Complications of the innate and adaptive immunity in CKD and clinical complications, including cardiovascular disease, infections, and malignancies;
4. The impact of renal transplantation in patients' immunological profile and outcome of graft function.

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
