Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Life* aims to showcase advancements in the study of the interactions among the host, the associated microbiota, and the environment. For this purpose, we invite the submission of research articles, review articles, and short communications that cover any aspect of the metagenomic and metatranscriptomic analyses of microbiomes (for example, human and plant/soil microbiomes), mass spectrometry-based analyses of microbiota, an understanding of microorganism–microorganism and host–microorganism interactions, the influence of diets/nutrients on these interactions, computational approaches to understand the interaction, and microbiota/microbiome engineering at the individual species level or as an ecosystem.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
