## Targeting Cancer Stem Cells with Natural Bioactive Compounds: Inside the Molecular Pathways

Guest Editors:

### Dr. Danila Cianciosi

Dipartimento di Scienze Cliniche Specialistiche ed Odontostomatologiche (DISCO)-Sez. Biochimica, Facoltà di Medicina, Università Politecnica delle Marche, 60131 Ancona, Italy

### Dr. Tamara Forbes-Hernández

Department of Analytical and Food Chemistry, University of Vigo - Vigo Campus, 36310 Vigo, Spain

Deadline for manuscript submissions:

**closed (15 July 2021)**

### Message from the Guest Editors

Cancer stem cells (CSCs) are a small percentage of cells within tumors with the skills of differentiation, self-renewal and tumorigenicity when transplanted into an immunodeficient animal host. They could be one of the causes of resistance and therefore are becoming a potential target for cancer therapy and prevention. The characteristic pathways of CSCs that give them the essential properties of stemness, such as self-renewal, are mainly Wnt/β-catenin, Hedgehog (Hh) and Notch. The main aim of the Special Issue “Targeting Cancer Stem Cells with Natural Bioactive Compounds: Inside the Molecular Pathways” is to be an open forum where researchers may share their original research or reviews of the scientific literature, examining the role of bioactive natural compounds from different dietary sources (fruits, vegetables, algae, mushroom, herbs) and showing (focusing on molecular mechanism) how they can prevent and reduce the risk of developing cancer and help in its treatment with chemo- and radiotherapy

## Editor-in-Chief

**Prof. Dr. Lluís Ribas de Pouplana**

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
