Message from the Guest Editors

New Horizons in Veterinary Neurology is a Special Issue of *Life* that focuses on new developments in clinical veterinary neurology including neuroradiology, neurosurgery, the diagnosis and treatment of central and peripheral nervous system diseases including neuromuscular disorders, rehabilitation, neuroanesthesia and pain management, neuropathology, neuroanatomy and neuropharmacology. Original manuscripts covering all aspects of Veterinary Neurology in domestic and non-domestic animals are invited. Papers reporting novel solutions to common problems and novel descriptions of less commonly recognized conditions are particularly welcome. We also invite original research on translational studies that provide insight into diagnosing and treating neurological conditions in all species.
