## Development and Application of Antimicrobials

Guest Editors:

### **Dr. Virginia Fuochi**

Department of Biomedical and  
Biotechnological Sciences  
BIOMETEC, University of Catania,  
Catania, Italy

### **Dr. Pio Maria Furneri**

Department of Biomedical and  
Biotechnological Sciences  
BIOMETEC, University of Catania,  
Catania, Italy

### **Dr. Adriana Garozzo**

Department of Biomedical and  
Biotechnological Sciences  
BIOMETEC, University of Catania,  
Catania, Italy

Deadline for manuscript  
submissions:

**21 January 2025**

### **Message from the Guest Editors**

In the realm of healthcare, groundbreaking developments in the field of antimicrobials. These powerful agents, designed to combat microorganisms such as bacteria, viruses, and fungi, have become indispensable tools in the fight against infectious diseases. As the health challenges, the ongoing development and application of antimicrobials play a central role in shaping the future of medicine.

One of the key areas of focus in antimicrobial development lies in addressing antibiotic resistance. Researchers are actively exploring innovative compounds and novel approaches to counteract this resistance, ensuring the continued efficacy of antimicrobials. From synthetic compounds to bioengineered solutions, the landscape of antimicrobial development is diverse and dynamic.

Moreover, the application of antimicrobials extends beyond traditional medicine. With the advent of nanotechnology, researchers are exploring nano-sized antimicrobial particles that exhibit enhanced efficacy and targeted delivery, minimizing collateral damage to healthy cells. This precision in treatment marks a significant stride towards personalized medicine and more effective healthcare interventions.

## Editor-in-Chief

### **Prof. Dr. Lluís Ribas de Pouplana**

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
