Prof. Dr. Giuseppe Biondi Zoccai

Department of Medico-Surgical Sciences and Biotechnologies, Sapienza University of Rome, Corso della Repubblica 74, 04100 Latina, Italy

Deadline for manuscript submissions:

closed (27 November 2022)

Message from the Guest Editors

Dear Colleagues,

Clinical guidelines are informational documents that include recommendations aimed at optimizing patient care. Evidence-based clinical guidelines are built on systematic reviews of scientific evidence, high-quality randomized clinical trials, and an assessment of the benefits and harms of different healthcare options. A large volume of information on and variability in the quality of scientific information have been generated in recent years in the area of health, so there is a need to create syntheses that facilitate access to this information and allow for scientific recommendations based on evidence that can provide support for the scientific quality of decision making, for health professionals, managers, and patients. This Special Issue of *Life* will be dedicated to publishing the best articles that reflect efforts and innovations related to clinical guidelines in the area of health. In this Special Issue, we hope to bring together the best clinical guideline articles that reflect the best current scientific evidence. All submissions will be selected and peer-reviewed to ensure their quality and relevance.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
