Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editor

Dear Colleagues,

Infectious diseases have characterized human history, and currently present several challenges. For example, during the last few decades the wide spread of antimicrobial resistance has become a global health problem, significantly increasing the overall hospital mortality, the need for ICU admission, the length of stay, and consequently the healthcare costs. Another challenge is presented by severe acute respiratory syndrome coronavirus-2 (SARS-CoV-2) infection. Finally, although for HBV, HCV and HIV we have very efficacious antiviral treatment, the challenge is represented by the case finding and linkage-to-care of positive subjects, not only in difficult-to-reach populations such as intravenous drug users, prisoners, and immigrants, but also in the general population

Authors are cordially invited to contribute original research papers or reviews to this Special Issue of *Life*.

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Biology*) / CiteScore - Q2 (*Paleontology*)
