## New Insights into the Placental and Placental Membrane Pathophysiology of Preterm Birth

Guest Editors:

### **Dr. Chan-Wook Park**

Department of Obstetrics and Gynecology, Seoul National University College of Medicine, Seoul 03080, Republic of Korea

### **Prof. Dr. Ramkumar Menon**

Department of Obstetrics & Gynecology, Division of Maternal-Fetal Medicine Perinatal Research, The University of Texas Medical Branch at Galveston, 301 University Blvd., Galveston, TX 77555, USA

Deadline for manuscript submissions:

**closed (31 December 2021)**

### **Message from the Guest Editors**

Preterm birth is a leading cause of perinatal morbidity and mortality. Unfortunately, preterm births continue unabated in spite of the rapid progress of medical science. To resolve this matter for the future, it is essential to determine the meticulous pathophysiology in the placenta in preterm birth.

Meticulous research on the histopathology and molecular pathology (i.e., immunohistochemistry and transcriptomic analysis) in the placenta and placental membrane of preterm birth will provide us with the basis for the prevention and treatment of numerous patients at risk for preterm birth.

This Special Issue aims to present new insights in the field, covering areas ranging from histopathology through to molecular pathology in the placenta and placental membrane of preterm birth. We welcome original research articles, reviews, and short reports on the placental pathophysiology of preterm birth.

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
