Care, Medical School, University  
of Pécs, Pécs, Hungary

Deadline for manuscript  
submissions:

**closed (28 April 2023)**

### Message from the Guest Editors

Large vessel occlusion (LVO) is estimated to be present in between approximately 20 and 40% of AIS cases; this wide range is due to the application of different LVO definitions. Despite the amount of biomarker research in the field of AIS so far, only a few markers that are potentially suitable for LVO detection have been identified, and these are only for research purposes and are not included in the current practical guidelines.

For this Special Issue, we welcome original research, meta-analyses, and review articles on any topic associated with challenges in the diagnosis and management of large vessel occlusion, from preclinical research to multidisciplinary clinical management.

Topics relevant to this Special Issue include, but are not limited to:

1. Preclinical patient selection, including the set up and inclusion of prehospital stroke scales and biomarker studies;
2. Differential diagnoses of LVOs;
3. Challenges in the hyperacute management of LVOs, including multimodal brain imaging;
4. Challenges in endovascular treatment, including the use of extra- and intracranial stenting;
5. Stroke of unknown time of onset;
6. Imaging-based patient selection;
7. The role of biomarkers.

## Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
