

Special Issue

COVID-19 Prevention and Treatment: 2nd Edition

Message from the Guest Editors

This second volume of this Special Issue follows on from the success of the first, we invite you to publish your research in this edition of “COVID-19 Prevention and Treatment”

(https://www.mdpi.com/journal/life/special_issues/COVID_19_prevention_treatment). What started as a cluster of patients with a mysterious respiratory illness in December 2019 was later identified as COVID-19. All our interventions have focused on cutting lines of viral transmission to control the spread of the pathogen. However, what we have learned thus far tells us that the story of COVID-19 is not so simple. COVID-19 is not a pandemic; it is a syndemic. This indicates that a wider approach is needed to protect the health of our communities. This Special Issue arises from the need for a new approach both in the clinical setting and in therapeutic regimens developed through the exchange of results from clinical and preclinical studies on COVID-19. Original research articles, and reviews on various aspects of COVID-19 are welcome. With this Special Issue, we aim to create an interdisciplinary consensus from a new perspective.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
