Deadline for manuscript submissions:

15 September 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue seeks to review the latest research in the field of lipid-based foods, focusing on technological advancements, analytical techniques, and quality control measures. We welcome the submission of original research articles and reviews, encompassing a wide range of related topics. Contributions that provide insights into the underlying scientific principles, innovative methodologies, and practical applications related to the technologies and quality control of lipid-based foods are highly encouraged.

We invite researchers, scientists, and industry experts from various disciplines to share their expertise and contribute to this Special Issue. By pooling together diverse perspectives and cutting-edge research, we aim to foster advancements in lipid-based food science and facilitate the development of high-quality, nutritious, and safe food products.
