

Special Issue

The Role of Immune Cells in Acute and Chronic Liver Disease

Message from the Guest Editors

This Special Issue aims to provide insight into recent advances in our immunological understanding of acute and chronic liver failure, as well as the identification of new immunotherapeutic targets and interventions. We welcome the submission of original research and review articles. Liver immunology research areas of interest include, but are not limited to, the following:

- Alcohol- and drug-induced liver injury, including acetaminophen-induced acute liver failure;
- Cirrhosis and acute-on-chronic liver failure;
- Non-alcoholic fatty liver disease and non-alcoholic steatohepatitis;
- Insights from new technological advances such as spatial transcriptomics and RNA sequencing.

We look forward to receiving your contributions.

Guest Editors

Dr. Evangelos Triantafyllou

Department of Metabolism, Digestion and Reproduction, Section of Hepatology and Gastroenterology, Imperial College London, London W2 1NY, UK

Dr. Patricia Lalor

Institute of Immunology and Immunotherapy, University of Birmingham, Edgbaston, Birmingham B15 2TT, UK

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Hartmut W. Jaeschke
Department of Pharmacology, Toxicology & Therapeutics, University of
Kansas Medical Center, Kansas City, KS 66160, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 27.2 days after
submission; acceptance to publication is undertaken in 6.6
days (median values for papers published in this journal in
the second half of 2024).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.
