

## **Compensation for Geometric Errors and Improvement in Accuracy through Innovative Design and Advanced Control Strategies**

Guest Editor:

**Dr. Bo-Lin Jian**

Department of Electrical  
Engineering, National Chin-Yi  
University of Technology,  
Taichung City 41170, Taiwan

Deadline for manuscript  
submissions:

**28 February 2025**

### **Message from the Guest Editor**

This special issue focuses on cutting-edge approaches to improving machine tool accuracy and precision across various domains. We invite submissions that address geometric error compensation, advanced control systems, high-precision developments in diverse fields, and image processing techniques for accuracy control and recognition.

We welcome original research articles, comprehensive reviews, and technical notes that contribute to the advancement of geometric error compensation and accuracy enhancement. Submissions should emphasize innovative designs, advanced control systems, or cutting-edge methodologies that push the boundaries of precision in their respective domains.

This special issue aims to provide a platform for researchers, engineers, and practitioners to share their latest findings and foster interdisciplinary collaboration in the pursuit of ever-higher levels of accuracy and precision in modern manufacturing and measurement systems

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Antonio J. Marques  
Cardoso**

## Message from the Editor-in-Chief

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2 (Control and Optimization)
