Message from the Guest Editors

The authors from the conference INDUSCON 2021 held in São Paulo, Brazil, are invited to submit an expanded version of their papers to *Machines*. The selected papers are related to the industrial applications in several major topics of the conference, including: life support systems, robotics and mechatronics, Industry 4.0, Internet of Things, additive manufacturing, ultrasound techniques, electrical machines and drives, electric vehicle, autonomous vehicles and drones, industrial lightning, deep learning, machine learning, and others.

Deadline for manuscript
submissions:

closed (31 January 2022)

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank: JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2 (Control and Optimization)
