## Smart Manufacturing

Guest Editors:

**Prof. Dr. Zhuming Bi**

Department of Civil and  
Mechanical Engineering, Purdue  
University Fort Wayne, Fort  
Wayne, IN, USA

**Prof. Dr. Li Da Xu**

Department of Information  
Technology, Old Dominion  
University, Norfolk, VA 23529, USA

**Dr. Puren Ouyang**

Department of Aerospace  
Engineering, Ryerson University,  
350 Victoria St, Toronto, ON M5B  
2K3, Canada

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

This special issue aims to explore the correlations of the aforementioned ITs with the emerging research topics in Smart Manufacturing. A paper on one or more of the following subjects is especially welcomed:

- Literature review on the state of the art of manufacturing such as Smart Manufacturing, Sustainable Manufacturing, Cloud Manufacturing, and Digital Manufacturing
- Cyber physical systems in manufacturing
- Internet of Things in manufacturing
- Big Data Analytics in manufacturing
- Cloud-Computing in manufacturing
- Enabling technologies for sustainable manufacturing
- Adaptable enterprise architecture such as service-orientated architecture (SoA) and agent-based systems
- Digital manufacturing
- New sensors and controls for machine tools, fixtures, and other smart things
- Data mining for planning, scheduling and controls
- Development of intelligent systems such as robots, autonomous guided vehicles (AGVs), and other programmable manufacturing resources
- Case studies in smart manufacturing

Cardoso**

CISE—Electromechatronic  
Systems Research Centre,  
University of Beira Interior,  
Calçada Fonte do Lameiro, P -  
6201-001 Covilhã, Portugal

## **Message from the Editor-in-Chief**

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Mechanical*)
