Deadline for manuscript  
submissions:

**closed (20 May 2022)**

### Message from the Guest Editors

Dear Colleagues,

It is our great pleasure to announce this Special Issue of *Materials* entitled “Advances in the Structural and Functional Characterization of Ferroic Materials” is now open for submissions. We invite you to submit your contributions.

Ferroic materials: magnetics, ferroelectrics and multiferroics are now widely implemented in different types of devices, for examples, micro- and nanoelectronics as well as memory devices, etc. They play a key role in development of the modern technology. As well as known ferroic materials, novel materials, many 2D-ferroelectrics and magnetics are being deeply investigated by researchers. This issue aims to summarize recent progress in the advanced characterization of ferroelectric, piezoelectric, magnetic, and other functional materials, with specific focus on microscopy and spectroscopy realized at the micro- and nanoscale as well as scale of individual atoms and molecules.

Dr. Denis Alikin  
Dr. Ali Baghizadeh

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (*Metallurgy & Metallurgical Engineering*) / CiteScore - Q2 (*Condensed Matter Physics*)
