## Advances in Structures and Properties of Glass

Guest Editor:

**Prof. Dr. Marcin Środa**

Department of Glass Technology  
and Amorphous Coatings, AGH  
University of Science and  
Technology, 30-059 Krakow,  
Poland

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editor

Dear Colleagues,

Glass is being continuously developed and new areas of application are still discovered due to improved materials design. This growing possibility of applications follows the scientists' interest in glass study. Biotechnology, optoelectronics, environmental protection and energy engineering are the most forward-looking technologies and development trends for use of glass. However, understanding the nature of glass and its impact on properties is the subject of ongoing research. This Special Issue is focused on the identification of relationships between the structure of materials and the corresponding physical properties.

I believe that this Special Issue will help to create a stimulating platform to present studies on glass, its properties and new applications.

It is my pleasure to kindly invite you to submit a manuscript for this Special Issue dedicated to "Advances in Structures and Properties of Glass". Full papers and short communications, as well as reviews, would be greatly appreciated.

Prof. Marcin Środa

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
