### Message from the Guest Editors

Dear Colleagues,

A new section “Metals and Alloys” of *Materials* (ISSN 1996-1944) was launched in May 2021. This section aims to provide an international peer-reviewed medium for dissemination and active discussion of the latest and most important advances in the field of metal and alloy science as well as advances in engineering technology and innovative applications. We welcome the submission of high-quality research on various aspects of the science of metals and alloys.

We have also established a new Special Issue to commemorate the launch of the section “Metals and Alloys”. The main focus of this Special Issue is review articles on the processing, microstructure, and property relationships in the advanced manufacturing of alloys. High-quality research articles on various aspects of metal and alloy science are also welcomed.

It is our pleasure to invite you to submit your exceptional manuscripts for publication in this Special Issue.
