Research, Joliot-Curie 6, 141980  
Dubna, Russia

**Prof. Dr. Magdalena Balintova**

Institute for Sustainable and  
Circular Construction, Faculty of  
Civil Engineering, Technical  
University of Kosice, Košice,  
Slovakia

Deadline for manuscript  
submissions:

**closed (10 July 2023)**

### Message from the Guest Editors

Dear Colleagues,

At present, thousands of tonnes of industrial and domestic wastewater are released in natural water bodies, contributing to their pollution with inorganic, organic, and radioactive compounds. Sorption is considered to be one of the most efficient wastewater treatment techniques. Every day, new sorbents are elaborated. At the same time, it is important to develop materials which meet several criteria, such as high removal efficiency, environmental safety, and multiple use.

This Special Issue will provide readers with up-to-date information on the recent progress in the application of environmentally friendly materials in wastewater purification.

Contributing papers are solicited in the following areas:

- Environmentally friendly materials in metals removal;
- Environmentally friendly materials in organic pollutants removal;
- Environmentally friendly materials in radionuclides removal;
- Environmentally friendly materials in complex wastewater treatment.

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
