Deadline for manuscript
submissions:
closed (20 July 2023)

Message from the Guest Editor

Dear Colleagues,

The Special Issue mainly contains :

- Mechanical behaviour and properties of natural biological materials, or engineered biomimetic materials;
- Characterisation of biomimetic composites or biological materials in relation to mechanical behaviour;
- Fracture, failure and plasticity of biomimetic materials or biological materials;
- Geometrical design of biological materials or biomimetic materials in relation to mechanical behaviour;
- The design of biomimetic materials or natural biological joints in relation to mechanical behaviour;
- 3D Printing/additive manufacturing of biomimetic geometries, biomimetic joints, or the geometrical design of biomimetic composites;
- Mechanical behaviour of cellular solids;
- Long-term fatigue/creep/wear of engineered biomimetic composites or natural biological materials;
- Novel measurement and modelling techniques to determine the mechanical behaviour and properties of engineered biomimetic composites and natural biological materials;
- Correlations between morphology/geometry and mechanics in terms of properties and behaviour.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
