Message from the Guest Editors

Dear Colleagues,

I am glad to introduce the Special Issue, entitled “Advances in Dental Implants, Tissue Engineering and Prosthetic Materials” for the *Materials* journal. The focus of this Special Issue will be on basic research and clinical applications related to advances in biomaterials in the fields of implantology, including the prosthetic aspects and tissue engineering to optimize the clinical results. For that reason, the biomaterials involved in tissue engineering and regenerative medicine will also be focused on in this Special Issue.

Nevertheless, these different aspects are related to the improvement of implantology treatment outcomes, with a direct relationship between basic research and applied clinical practice.

We look forward to receiving your contributions.

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
