## Adhesion Mechanics of Composites

Guest Editors:

### Dr. Teng Zhang

Department of Mechanical and  
Aerospace Engineering, Syracuse  
University, Syracuse, NY, USA

### Dr. Xin Yi

Department of Mechanics and  
Engineering Science, College of  
Engineering, Peking University,  
Beijing, China

### Dr. Haimin Yao

Department of Mechanical  
Engineering, The Hong Kong  
Polytechnic University, Kowloon,  
Hong Kong

Deadline for manuscript  
submissions:

**closed (20 September 2023)**

### Message from the Guest Editors

Dear colleagues,

Composites have been widely used in airplanes, vehicles, buildings, and structures in our daily lives (e.g., doors and windows) due to their superior mechanical properties, low weight, and multifunctionalities. The synergies of two or more different constituent materials are the key to achieving these properties, which are greatly impacted by the adhesion mechanics at interfaces between different materials. This Special Issue, “**Adhesion Mechanics of Composites**”, aims to collect high-quality original research papers and comprehensive reviews on recent advances in the field of the mechanics of interfaces in composites. All areas in composite mechanics are welcomed, with examples included but not limited to mechanics modeling and characterization, underlying design mechanisms of natural biological composites, bio-mimetic and bio-inspired design, and the manufacturing of engineered composites as well as their applications.

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
