## Advances in Polymer Blends and Composites

Guest Editors:

**Dr. Eduard-Marius Lungulescu**

**Prof. Dr. Radu Setnescu**

**Dr. Cristina Stancu**

Deadline for manuscript  
submissions:

**closed (10 April 2024)**

### Message from the Guest Editors

Generally, polymer blends and composites, including nanocomposites, are seen as valuable technical solutions to improve the mechanical and other properties of polymers. Hence, these materials are used nowadays in a wide range (spectrum) of applications. The actual trends in research and development of these materials arise from two main requirements, which often need to be conciliated:

- Increasing performance of polymer materials and extending their applications as advanced materials in various fields;
- Better fitting of new materials to sustainable development requirements that involve the improvement of environmental behavior of polymer materials.

Please view more details, including submission entrance (“Submit to Special Issue” option on the left side of the website), via the Special Issue website at:

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
