## Featured Reviews on Advanced Nanomaterials for Environmental, Microbiology and Biomedical Applications

Guest Editors:

**Prof. Dr. Carlos Lodeiro**

Inorganic Chemistry and NanoChemistry, NOVA School Of Science And Technology, FCT NOVA, NOVA University Lisbon, 2829-516 Caparica, Portugal

**Dr. Hugo M. Santos**

LAQV-REQUIMTE—NOVA School of Science and Technology, FCT NOVA, NOVA University Lisbon, 2829-516 Caparica, Portugal

**Dr. Elisabete Oliveira**

LAQV-REQUIMTE—NOVA School of Science and Technology, FCT NOVA, NOVA University Lisbon, 2829-516 Caparica, Portugal

Deadline for manuscript submissions:

**20 August 2024**

### Message from the Guest Editors

Advanced nanomaterials have emerged as promising candidates for a wide range of applications, particularly in the fields of environmental science, microbiology, and biomedicine. These materials, typically engineered at the nanoscale, exhibit unique properties that make them highly suitable for addressing complex challenges in these diverse domains.

In this Special Issue, we intend to incorporate contributions from leading scientists working with nanoparticles and nanomaterials for (i) biomedical applications, such as drug delivery, proteomics, imaging probes, biomedical sensors, genomics, hyperthermia therapy, and antibacterial applications, and (ii) environmental applications, such as tools for the detection and quantification of drugs, contaminants, fertilizers, antibiotics, toxic metals, etc.

Please see more details via the Special Issue link at:

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
