Message from the Guest Editors

Dear Colleagues,

The Special Issue, “Compatibility and Mechanical Properties of Natural Fillers and Polymers”, will address advances in the field of composite materials. There is no limit to the types of processing systems. Articles and reviews dealing with composite materials with natural fillers, their compatibility and also their potential applications in diverse sectors are very welcome.

The topics of interest include, but are not limited to:

- Compatibility and Mechanical Properties of Natural Fillers
- Environmental impacts of composite materials: land-water-energy nexus
- Circular economy in composite materials: recycled fibers and residues
- Techno-economic and environmental assessment of composites with partially bio-based and biodegradable matrices
- Hybrid composites
- Combination of synthetic and natural reinforcements in plastic composites
- Bio-based/biodegradable composites

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
