### Message from the Guest Editors

We have the honor and pleasure of co-organizing the X Congress of Chemical Technology (X Kongres Technologii Chemicznej) in Wrocław, Poland, from May 11 to 14, 2022. In connection with this event, we would like to invite you to share the findings of your research in the *Materials* Special Issue entitled "X TECHEM: Sustainable Materials and Technologies".

As part of the Congress, as well as the scientific publications presented as part of this Special Issue, the following topics will be addressed:

1. basic product technologies (refining of crude oil and its products, additives to fuels and oils, fertilizers, polymer materials and auxiliary additives, other large-volume processes);
2. specialized product technologies (specialized products and plastics, engineering plastics and adjuvants, plant protection products and bactericidal products);
3. technologies for the circular economy and climate protection (green chemistry, material/biomaterial technologies and corrosion, energy production and storage technologies, hybrid materials);
4. biotechnologies (food industry, medical, pharmaceutical and cosmetic industry, agrobiotechnology).
