## Bone Graft Materials

Guest Editor:

**Prof. Dr. Chang-Joo Park**

Division of Oral and Maxillofacial Surgery, Department of Dentistry, College of Medicine, Hanyang University, Seoul, Korea

Deadline for manuscript submissions:

**closed (31 December 2021)**

### Message from the Guest Editor

In the field of orthopedic, craniofacial, and oral surgery, bone grafting is a surgical reconstructive procedure to compensate for the lack of horizontal and/or vertical bone using various bone grafting materials, such as autografts, allografts, alloplastics, and xenografts, frequently with implant insertions. Moreover, many bioactive proteins, such as bone morphogenetic proteins and platelet-derived growth factors, are also widely used to rehabilitate the osseous defects for cosmetic and functional purposes.

The purpose of this Special Issue, “Bone Graft Materials”, is structured by the aim to sum up recent promising progresses in bone graft materials, including updated findings, new production methods, and the latest biomaterials and their delivery techniques for patient- and surgeon-friendly approaches. This Special Issue, “Bone Graft Materials”, is also open to biocompatible osteoconductive polymers, bone fillers, barrier membranes, and bio-printings.

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
