Deadline for manuscript  
submissions:

**closed (30 November 2013)**

### Message from the Guest Editor

Dear Colleague,

Supramolecular cage complexes are entering a new era in which applications are becoming the highlights of publications while the structural aspects of the metalla-assemblies are relegated to basic characterizations. Known applications for supramolecular cage complexes include sensing, cavity controlled catalysis, host-guest-chemistry, drug delivery, and soon other applications will appear. Therefore, it is with great pleasure that I'm inviting you to submit your recent contributions in the field of supramolecular cage complexes for this special issue of Materials. Review, concept and research articles are welcomed for this special issue: The overall goal being to provide to the readers an overview of the field with an emphasis on the actual and future applications of supramolecular cage complexes.

Prof. Dr. Bruno Therrien

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
