Deadline for manuscript
submissions:

closed (20 February 2022)

Message from the Guest Editor

Thanks to contemporary dental materials and their applications, the efficiency and effectiveness of modern clinical restorative dentistry has advanced remarkably. By using these contemporary dental materials, the clinical success rate and postoperative prognosis has increased substantially and, consequently, the ratio of natural teeth preservation has as well.

In the fields of preventive, restorative, and prosthodontic treatments, contemporary materials and their applications have been studied for their properties and effectiveness. Further studies are needed to collate clinically relevant evidence for recently introduced contemporary and advanced dental materials.

It is my pleasure to invite you to submit a manuscript for this Special Issue with the topic of “Contemporary Dental Materials and Their Applications”. Full papers of original articles, communications, and review articles are all welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
