Message from the Guest Editor

Dear Colleagues,

We are pleased to announce this Special Issue entitled “Feature Papers in Carbon Materials”. This is a collection of relevant white papers, topic overviews, tutorials, and seminal work of current interest in the field. Its scope includes but is not limited to carbon black which is either synthetic or of natural origin; carbon fibers and filaments, as well as carbon nanotubes; diamond and diamond-like carbon; fullerenes; glassy carbon; graphite; graphene; graphene–oxide; porous carbons; pyrolytic carbon; and other sp² and non-sp² hybridized carbon systems.

We hope this topic is of interest to you and invite you to send a tentative title and short abstract to our editorial office (materials@mdpi.com) for evaluation before submission. Please note that selected papers are still subject to thorough peer review. Well-prepared papers accepted for this Special Issue will be granted a discounted publication fee or waiver.

We look forward to receiving your excellent work.
