Message from the Guest Editor

This Special Issue “Heterogeneous Catalysts: Preparation and Application” covers contributions in the fields of heterogeneous catalysis with an emphasis on a new understanding of catalysts and catalytic materials, the synthesis, analysis, and catalytic function of heterogeneous catalysts, structural characterizations, and novel concepts in surface chemistry. This Special Issue welcomes original, novel, and high-impact contributions in the fields mentioned above. The submitted manuscript should cover sufficient details of the methods, catalyst characterization results, reactions, reactants, and products.
