

Feature Paper in Section Materials Chemistry

Guest Editor:

Prof. Dr. Halina Kaczmarek

Faculty of Chemistry, Nicolaus
Copernicus University in Toruń,
Gagarina 7, 87-100 Toruń, Poland

Deadline for manuscript
submissions:

closed (20 August 2022)

Message from the Guest Editor

The subject of this issue covers the broadly understood chemistry of materials, in particular the chemistry of organic and inorganic compounds as well as polymers and biopolymers, their mixtures, and composites. The work may concern chemical synthesis or the production of new materials as a result of the introduction of modifying substances, nano-fillers or compounds with biological, photochemical, or other activity. Works on the characterization of the obtained materials using analytical and instrumental methods, including their physicochemical properties, thermal and photochemical stability, biodegradability, and the possibility of their application in modern technologies (including science, industry, and medicine) will be taken into account. Both extensive reviews and research work will be especially welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
