Message from the Guest Editor

The present Special Issue welcomes contributions in form of full articles, short communications, or review articles related to: (i) novel nanocomposites for improved adsorption and drug delivery and (ii) use of drug modified inorganic nanoparticles for further polymer-inorganic nanocomposites development.

This Special issue will focus on studies related to the design and testing of polymer inorganic nanocomposites based on either natural occurring polymers, synthetic polymers or semi-synthetic polymers with incorporated zero-dimensional to three-dimensional nanoparticles for drug delivery purposes.
