Química, Faculdade de  
Engenharia da Universidade do  
Porto, Rua Roberto Frias, 4200-  
465 Porto, Portugal

Deadline for manuscript  
submissions:

**closed (31 March 2016)**

### Message from the Guest Editor

Dear Colleagues,

Solid surfaces, possessing the ability to remove or eliminate dirt or microbial contaminations without the need for direct human intervention, have been studied intensively in the last few decades. The areas of application are numerous: architectural coatings and materials, textiles, photovoltaic cells, membranes, hospital surfaces, medical devices, *etc.* Diverse approaches have already been tested and translated into commercial products. Nonetheless, this area of research is still thriving with new materials, additives, treatments, technologies, and theoretical insights.

The forthcoming Special Issue aims to report on scientific and technological advances pertaining to self-cleaning or antimicrobial surfaces. It is my pleasure to invite you to submit a manuscript.

Fernão D, Magalhães

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada

2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q1 (Metallurgy and Metallurgical Engineering) / CiteScore - Q2 (*Condensed Matter Physics*)
