

Special Issue

Modeling and Optimization of Material Properties and Characteristics

Message from the Guest Editors

This Special Issue, entitled "Modeling and Optimization of Material Properties and Characteristics", is the perfect opportunity for researchers to present their research on the behavior, parameters, characteristics and application of various materials. The scope of this Special Issue includes, but is not limited to, the following topics: Theoretical and experimental studies on the material properties, characteristics, and behavior of a specific material; The mathematical modeling of the parameters of material properties and characteristics of a specific material using regression models, artificial neural networks (ANN), and other methods; The optimization of the properties and characteristics of materials using optimization algorithms and techniques; The mathematical modeling and optimization of the parameters of different types of machining and additive manufacturing materials using regression models, RSM, ANN, and other methods.

Guest Editors

Prof. Dr. Predrag Dašić

Engineering Academy of Serbia, 11000 Belgrade, Serbia

Prof. Dr. Adolfo Senatore

Department of Industrial Engineering, University of Salerno, Via Giovanni Paolo II, 132, 84084 Fisciano, Italy

Dr. Alessandro Ruggiero

Department of Industrial Engineering, University of Salerno, Via Giovanni Paolo II, 132, 84084 Fisciano, SA, Italy

Deadline for manuscript submissions

20 August 2025

About the Journal

Message from the Editor-in-Chief

Materials (ISSN 1996-1944) was launched in 2008. The journal covers twenty-five comprehensive topics: biomaterials, energy materials, advanced composites, advanced materials characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Maryam Tabrizian

1. Department of Biomedical Engineering, Faculty of Medicine and Health Sciences, McGill University, Montreal, QC H3A 2B6, Canada
2. Faculty of Dentistry and Oral Health Sciences, McGill University, 3640 Rue University, Montreal, QC H3A 0C7, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Ei Compendex, CaPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q1 (Metallurgy and Metallurgical Engineering) /
CiteScore - Q2 (Condensed Matter Physics)
