

Research and Application of Fuzzy Statistics

Guest Editor:

Prof. Dr. Laurent Donzé

Applied Statistics and Modelling,
Department of Informatics,
Faculty of Management,
Economics and Social Sciences,
University of Fribourg, Boulevard
de Pérolles 90, 1700 Fribourg,
Switzerland

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Dear Colleagues,

We envision a collection of papers dedicated to fuzzy statistical methods in applied statistics. Contributions covering some specific fuzzy statistical tools to describe, visualise and analyse distributions are particularly welcome. Empirical fuzzy distributions could be the focus of interest and, thus, new fuzzy inference methods could be adopted. Finally, new fuzzy estimation methods could be presented.

Topics include but are not limited to:

- fuzzy graphical statistical tools
- fuzzy empirical distribution
- fuzzy inference methods
- fuzzy statistical methods
- fuzzy confidence intervals
- fuzzy regression methods
- fuzzy data

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
