Deadline for manuscript  
submissions:

**31 October 2024**

### Message from the Guest Editors

Dear Colleagues,

Fuzzy theory presents a concept to characterize sets between 0 and 1 as human behavior. With the fuzzy set, numerous solutions for control issues, economic forecasting, bioinformatics, neuro-networks, signal communication, multi-systems, and computational intelligence have been widely proposed and investigated. Based on the advancement of mathematics, fuzzy theory is developing with a modeling approach, optimization algorithm, and computational ability and is furtherly applied for mechanical automation, artificial intelligence, image processing, risk assessment, and so on. As per recent vigorous results, fuzzy theory in an interesting topic of research for performing intelligent control of practical issues.

- Control problem of novel fuzzy systems;
- Development of fuzzy control technology;
- Investigation of hybrid description for fuzzy systems;
- Novel fuzzy control for practical applications;
- Improvement of current fuzzy control.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
