Deadline for manuscript submissions:
closed (31 August 2024)

Message from the Guest Editors

Dear Colleagues,

We are pleased to announce this Special Issue of the journal *Mathematics* entitled "Advanced Research on Information System Security and Privacy". As new technologies emerge and threats become more sophisticated, there is a constant need for advanced research and innovative solutions to safeguard sensitive information and ensure user privacy. This Special Issue aims to address these challenges by providing a forum to serve a diverse audience by mitigating information risk, staying abreast of the latest developments, and publishing a range of articles that cater to a broad cross-sectoral and multi-disciplinary readership. We encourage submissions that explore topics such as cryptography, machine learning, and other innovative approaches to achieve robust security measures.

- information systems security
- privacy-preserving technologies of information systems
- secure communication for information systems
- cryptography and security
- situation awareness analysis of information systems
- threat detection and access control
- digital forensics
- ...

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
