

Mathematics and Computer Science-Driven Innovations in Web3

Guest Editor:

Dr. Sergey Yablonsky

Departamento de Organización de Empresas, Marketing y Sociología, Universidad de Jaén, 23071 Jaén, Spain

Deadline for manuscript submissions:

20 December 2024

Message from the Guest Editor

We are seeking submissions for a Special Issue on "New Advances in Business and Mathematics". Our goal is to showcase innovative research on the challenges posed by Web3, the IoT, AI, and the blockchain, as well as their impacts on digital businesses. We welcome contributions that highlight the latest trends, strategic frameworks, governance practices, sustainability assessment tools, and methods for enhancing performance as well as excellence in the Web3 context. Topics of interest include, but are not limited to, the following:

- Emerging trends in the Web3 landscape;
- Advances in Web3 digital business, the metaverse, and IT-driven industries;
- Web3 platform transformation and strategic frameworks;
- Convergence of the Internet of Things and blockchain technologies;
- AI techniques for sustainable Web3/metaverse development;
- Digital assets management;
- Web3 performance and excellence metrics;
- Web3 entrepreneurship, SMEs, and successful Web3 startups.

an Open Access Journal by MDPI

Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
