submissions:

closed (31 July 2023)

Message from the Guest Editor

The importance of blockchain in the transparency of management in public administrations is noteworthy, since a public record in an unalterable distributed ledger and verified by the community would make it difficult for cases of corruption and fraud to occur that undermine the trust of members of society in their leaders.

Submissions are welcome for research papers that present an analytical treatment with applications in various fields of research, such as business, finance, or applied mathematics, and interdisciplinary approaches that emphasize directions for future research and the implications for different users of financial information.

Editor-in-Chief

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
