Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Mathematics* will be devoted to the role of information and communication technologies (ICT) in STEM (Science, Technology, Engineering, Mathematics) education, which was very important during the pandemic situation of Covid-19 at universities.

The inclusion of ICT has a potential transformative effect on education. Firstly, it enhances science education by understanding complex or remote concepts via visualization, using inquiry-based learning and different kinds of models, and facilitating the creative processes, which are crucial in STEM education. Furthermore, ICT can support, mediate, and promote the 21st century skills required for effective creativity, cooperation, communication, and critical thinking...

School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
