Feature Papers in Functional Analysis and Applications

Guest Editor:

Prof. Dr. Jan Van Casteren

Department of Mathematics, University of Antwerp, 2020 Antwerpen, Belgium

Deadline for manuscript submissions:

closed (28 February 2023)

Message from the Guest Editor

Dear Colleagues,

In this Special Issue, papers in the following disciplines in mathematical analysis are welcome: functional analysis, operator theory and semigroups, (partial) differential equations, stochastic analysis, pseudo-differential operators including Boutet de Monvel calculus, boundary value problems, and Markov processes. Of course, it will also be a pleasure to receive papers with applications in these or related topics. In addition, articles that present interactions between the abovementioned fields are welcome, in particular results on the borderline between integral equations, functional analysis, and generation theorems for operator semigroups and Markov processes.

Keywords

- function spaces
- functional analysis
- operator theory
- operator semigroups
- pseudo-differential operators
- boutet de monvel calculus
- markov processes
- martingale theory

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The iournal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering sociology. particularly those that and stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
