Message from the Guest Editor

Dear Colleagues,

The Mathematics journal is starting the Special Issue “Stochastic Control Systems: Theory and Applications”.

The goal of this Issue is to bring together theoretical results and engineering practices with the aim of inspiring new ideas and solutions of existing and rising problems.

The scope of the Issue includes analysis of the controlled and control systems, parametric optimization, and design of stochastic optimal control.

The Issue welcomes the research papers and surveys in the stochastic control theory with no limits in topics from theoretical findings up to original applications.

Dr. Evgeny Kagan

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
