Mathematics, National and
Kapodistrian University of
Athens, 10679 Athens, Greece

Deadline for manuscript
submissions:

closed (7 October 2021)

Message from the Guest Editors

In the last few decades, the role of numerical analysis and scientific computing has been increasing constantly, especially for the solution of real-world problems. This Special Issue will present recent research results in numerical analysis and scientific computing. Papers on the production, analysis, and computational performance of new and original methods of all areas of numerical analysis and scientific computing are welcome.

We also welcome papers exploring applications of numerical and mathematical methods to real-world problems in sciences, engineering, and technology.

Editor-in-Chief

Prof. Dr. Francisco Chiclana

School of Computer Science and
Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (*Mathematics*) / CiteScore - Q1 (*General Mathematics*)
