University of Architecture, Civil
Engineering and Geodesy, 1
Hristo Smirnenski Blvd., 1164
Sofia, Bulgaria

Deadline for manuscript
submissions:

31 March 2025

Message from the Guest Editor

Geometry, physics, and mechanical engineering have been intertwined since the dawn of modern civilization. With the advancement of technology and mathematics, representative geometric models have been found for increasingly more branches of modern science—both as an insight and computational tool—simultaneously driving the theory forward with new applied problems. This Special Issue is dedicated to the exploration of the fruitful symbiosis between geometric ideas and problems in modern engineering.

Authors are encouraged to submit their manuscripts that focus on novel geometric models driven by applied engineering problems, as well as efficient practical solutions using various ideas and tools of geometry. We accept high-quality papers that contain well-presented original results according to the standards of MDPI; however, exceptionally good review articles are also welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
