Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editor

This Special Issue entitled “Advances of Linear and Multilinear Algebra” endeavors to publish research papers of the highest quality, with an appeal to specialists in the field of linear and abstract algebra, and to the broad mathematical community. We hope that the distinctive aspects of this Special Issue will bring the reader close to the subject of current research and leave the way open for a more direct and less ambivalent approach to the topic.

Our goal is to invite authors to present their original articles, as well as review articles, that will stimulate continuing efforts to develop new results in these areas of interest. We hope that this Special Issue will have a great impact on other people in their efforts to broaden their knowledge and investigation and help researchers to summarize the most recent developments and ideas in these fields.

This Special Issue invites authors to present their original articles that not only provide new results or methods but may also have a great impact on other people in their efforts to broaden their knowledge and investigation.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
