

Trends in Spatial Statistics and Spatial Econometrics

Guest Editor:

Dr. Anna Gloria Billé

Department of Statistical
Sciences, Alma Mater Studiorum
University of Bologna, 40126
Bologna, Italy

Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collect high-quality research papers that contribute to the development of spatial econometrics. Theoretical and applied studies in spatial econometrics can be submitted. We invite authors to submit original research articles as well as review articles in areas of interest, including but not limited to the following:

- spatial dependence
- static and dynamic spatial panel data modeling
- time-varying spatial marginal effects
- spatial nonlinear modeling
- spatial weighting matrix
- spatial microeconometrics
- resampling methods under spatial dependence
- hypothesis tests under spatial dependence
- forecasting with spatio-temporal data
- spatial factor models
- bayesian methods under spatial dependence
- financial spatial econometrics
- endogeneity issues in spatial econometrics

an Open Access Journal by MDPI

Editor-in-Chief

Informatics, De Montfort
University, The Gateway,
Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
