Deadline for manuscript
submissions:
closed (20 August 2023)

Message from the Guest Editor

All manuscripts should be written to be accessible to a broad scientific audience, who are interested in partial differential equations with their methods and applications in mathematical, physical, engineering sciences, etc. The covered topics include but are not limited to classical partial/difference equations, q-partial/difference equations, Nevanlinna theory, q-polynomials, generating functions, q-integrals, fractional calculus, and fractional q-calculus.

Special Issue

Editor-in-Chief

Prof. Dr. Francisco Chiclana
School of Computer Science and Informatics, De Montfort University, The Gateway, Leicester LE1 9BH, UK

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
