Campus II, Science 3, 14032 Caen,
France

Deadline for manuscript
submissions:
closed (31 December 2020)

Message from the Guest Editor

Dear Colleagues,

The aim of this Special Issue is to publish original research articles that cover recent advances in all the facets of statistics. Primary emphasis is placed on strongly motivated, well written, complete, and original papers.

The scope includes, but is not limited to, the following topics:

Biostatistics;

Data analysis;

Dimension reduction and variable selection;

Financial statistics and econometrics;

Inference with high-dimensional data;

Inference of stochastic processes;

Machine learning;

Nonparametric function estimation;

Nonparametric modeling;

Nonparametric Bayes methods;

Sample surveys;

Semiparametric models and procedures;

Statistical algorithms;

Statistical distributions;

Statistical methods for imaging

Time series analysis

Special Issue

Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.
Journal Rank: JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
