**Prof. Dr. Luis Alberiko Gil-  
Alana**

Faculty of Economics and ICS,  
University of Navarra, E-31080  
Pamplona, Spain

Deadline for manuscript  
submissions:

**31 May 2025**

### Message from the Guest Editors

The aim of this Special Issue entitled "Stochastic Processes and Its Applications" is to publish original research articles discussing the latest developments in the theory and applications of stochastic processes. Applications include the modeling and analysis of stochastic dynamic systems used in biology, economics, medicine, queuing theory, reliability theory, and statistical physics. Topics such as time series analysis are particularly welcome, either in the time or frequency domains, covering issues such as strong time dependence, duration models, long memory, and fractional integration and cointegration. This Special Issue may also incorporate theoretical articles as long as they report applications of the models investigated.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The journal *Mathematics* publishes high-quality, refereed papers that treat both pure and applied mathematics. The journal highlights articles devoted to the mathematical treatment of questions arising in physics, chemistry, biology, statistics, finance, computer science, engineering and sociology, particularly those that stress analytical/algebraic aspects and novel problems and their solutions. One of the missions of the journal is to serve mathematicians and scientists through the prompt publication of significant advances in any branch of science and technology, and to provide a forum for the discussion of new scientific developments.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), RePEc, and other databases.

**Journal Rank:** JCR - Q1 (Mathematics) / CiteScore - Q1 (General Mathematics)
